| **Tools** | JetBrains IDEs (PyCharm, Intelli J, Re Sharper, WebStorm, CLion etc), Visual Studio |

## Projects

**Stalkbook (A Website that Stalks Coders Profile from various Platform)** *Nadiad,IN*

Angular 6 | Node.JS with Express Framework | Mongodb *Jul.2018 - Oct.2018*

- Scrapped Profiles of registered coders from various platform using their coding handle.
- Used 'Puppeteer' and 'Cheerio' Library of Node.Js for scrapping.
- Fully responsive front-end using Angular 6
- Whole Scrapping Logic is backend 'API' using RESTful services

**Employee Professional Activity Management System (EPAMS)** *Nadiad, IN*

ASP.NET | MVC Application | EntityFramework *Sept.2018 - Oct.2018*

- A portal for smooth interaction between HR Dept. and Employees of the Firm.
- Employees submit any new project or research they undertook or any workshop they attended etc with proof and HR personnel varifies and approves it.
- This solves a problem of authenticity of information in person's CV. Any firm can verify the Employees CV from their past Employer using this portal.
- This is an MVC application using EntityFramework(ORM Code First Approach).

**An Airline Management System** *Nadiad, IN*

Python and Django Framework *Jan.2018 - Apr.2018*

- A portal to facilitate Regular operation of an Airline Company.
- Deals with basic CRUD operation related to Adding/Updating Flights, Changing their Routes and their Live Status.
- A first hand Experience at making Website. The website provides very basic Functionality.

# Extracurricular Activity

**CodeJam , Insilico 2K18**  *March, 2018*
ORGANISING MEMBER AND PROBLEM SETTER
- Got an exposure to the Problem Setting Arena of Competitive Coding.

**Insilico 2K17**  *March, 2017*
ORGANISING MEMBER
